

THE IRON COUNTY RECORD.

"The Press is the Lever by which the World is Moved."

VOL. 10

CEDAR CITY, IRON COUNTY, UTAH, FRIDAY, JULY 10, 1903.

NO. 28

IMPORTANT.

Miners trade with the CO-OP because they know their orders will be filled. And they do not have to leave their work to come to town for supplies; they send in their orders to us knowing that if what they want is in town they will be sure to get it.

If you are looking for Bargains, just read over the following list.

Ranges \$29.00 \$35.00 and \$50.00.

Barb Wire \$4.90 per 100 lbs. Heavy wire Fencing used instead of pickets 4 and 5 feet high, very strong and cheap. Screen Wire. Chicken Wire.

Hay Carriers and heavy rope for Derrick Forks.

Flour going fast at \$2.85 per 100 lbs.

The strongest and best Cedar City, made Screen Doors. Worth half a dozen imported ones.

Rubber Boots, \$3; save wetting your feet when watering your grain.

Canned Fruits and Canned Meat. Bacon, Hams and Cheese.

Fresh stock of Men's, Ladies' and babies' Shoes.

On satisfactory arrangements we carry you thirty days, and give a 5 per cent discount. Our immense trade is proof of our popularity.

Cedar City, CO-OP.

C. J. ARTHUR, Supt.

Underwear, Men's and Boys' Overalls, and most everything else you

will need in this line, at lowest possible prices at

Page & Bracken's.

Before the above had reached the compositor, who should come upon the scene but Dr. Smith himself. He avers that the foregoing is true and correct and explains that the business that calls him to Cedar at this time is the signing of the articles of incorporation of the Bullion Canyon Mining Co., of which he is a director. He had intended retreating by the north bound stage Tuesday evening, but another passenger had secured the seat on the east and he was obliged to remain over until Wednesday.

Since returning to Cedar Tim Rector has frequently wondered in a listless sort of way what had become of our old friend, Doc Smith. Well, this week we stumbled onto the facts. The Dr. is putting in his time at Buckhorn Springs prospecting for the precious metals with a plow and scraper, and rumor has it that he has struck a rich thing. It is said that he has extracted enough gold to fill all the hollow teeth in southern Utah for ten years to come. "Come to your pay and your two billed eggs," Doc.

A famine has been staring the people of Cedar in the face this week. Now don't jump at the conclusion that the town has been without flour, merely. The situation has been far more serious than that. It was the supply of booze that ran low, and if there had not been plenty of lager beer, port and sherry wine and other side lines, there might have been real suffering.

The windy weather this week has been very exasperating to hay haulers. Many of the teams have worked far into the night in order to take advantage of the lull that comes with sunset. During the fore part of the week the indications were favorable for storms and that reminds us that a good gentle rain would do an immense amount of good to southern Utah right now.

Dr. Middleton and Prof. H. Claud started up the canyon last Tuesday for a few days' outing. They are expected home today or tomorrow. They could have filled heavy orders for venison, were it not for the fact that deer are now out of season and the law provides that only two animals shall be bagged by one individual during a season. Of course the doctor and professor are above suspicion, but it might be well for Deputy Commissioner Goddard to have an eye on them.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Shas. Applegate of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but when all other medicines failed, three 25-cent bottles of Dr. King's New Discovery wholly cured me and I gained 25 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at J. H. McDonald's drug store.

Andrew Corry's horse Shamrock returned from Milford the first of the week, having been vanquished in the half-mile race with the Athlon mare. The colonel claims that his horse was in bad condition and that the animals will come together again during the Iron county fair. Shamrock has succeeded in building up a very good local reputation as a runner and if the Athlon mare is faster she is a good piece of horse flesh, that's all. The race during the fair will be eagerly watched for by the sporting fraternity.

LOCAL ITEMS.

It is reported that chintz bugs are doing damage in some parts of the North field.

Which of the three candidates represents your choice for school trustee? Deposit your answer in the ballot box next Monday.

Coal creek has failed rapidly the last week or two and from now on, unless there is a storm, water is going to be none too plentiful.

A few culverts placed in the central ditches that cross the newly opened streets of the city would be a great improvement to the town.

Dan E. Matheson is on the sicklist again this summer. His family call his ailment hay fever. Better take an outing into the mountains, Dan.

Joshua Crosby of St. George, who is pasturing his sheep on the mountain, was down for supplies and attending to other matters of business last Tuesday.

Trade has been reported dull this week with the merchants, doubtless due to the reaction following the celebration of the Fourth.

Over at Harmony the grass hoppers are damaging crops considerably in the fields, and at Little Pinto they are devouring the grass crop to an alarming extent and threaten to take the corn.

The two lady clerks at the Cedar Sheep Association spent their vacation on the Forth up the canyon, making headquarters at the Heyborne ranch. They report a pleasant out.

Atty. E. H. Ryan and family expect to move into their new residence early next week. Their property adjoins that of John S. Woodbury in the extreme western part of the city.

J. H. Arthur and Alfred Floyd started out west Tuesday on some mining business. Like all great promoters they were very confident and but little could be learned about their intentions.

Mr. and Mrs. Samuel L. Heyborne are receiving the congratulations of their friends on the advent into their family last Friday of a daughter. Well, Sam, here's many happy returns of the day.

Simon Simkins, who has been having such a desperate struggle for his life the past nine or ten weeks, is reported much better the last few days and his family is very hopeful now of his rapid recovery.

Mrs. Magnus Alstrom was down at the La Verkin hot springs for several days, trying the curative properties of that famous resort for rheumatic troubles. She returned home much improved in health.

When you wake up with a bad taste in your mouth, go at once to any Medicine Dealer and get a free sample of Chamberlain's Stomach and Liver Tablets. One or two doses will make you well. They also cure biliousness, sick headache and constipation.

For sale by All Druggists.

Butter is scarce in Cedar right now than hen's-fur. Only a few families are dairying this season and they are besieged almost continually by applications for butter. Guess we'll have to build the creamery, after all.

Get a free sample of Chamberlain's Stomach and Liver Tablets at any medicine dealer's. They are easier to take and more pleasant in effect than pills. Then their use is not followed by constipation as is often the case with pills. Regular size, 25c per box.

For sale by All Druggists.

Among the knights of the grip to squander a few shickels and several golden hours in Cedar this week were Will DeWolfe, representing the Scott-Stevens Hardware Co. and Henry Davis of Z. C. M. P's gent's clothing department.

Working Night And day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain fog into mental power. They're wonderful in building up the health. Only 25c per box. Sold by J. H. McDonald.

John T. Bullock is rejoicing over the addition of a fine girl to his family circle last Monday. As we have the information from the father direct there is nothing premature about the announcement this time. Mr. and Mrs. John T. have our congratulations.

Mrs. Adeline Murie has the decorators at work on the interior of her new business quarters in the north side of the old furniture block, and as soon as it is completed will move her stock of millinery, ladies' furnishings, etc., there.

William Taylor, who recently returned from the metropolis, reports that at present the Taylor iron properties are not tied up to any company or syndicate. The Taylor heirs have realized a neat little sum from the forfeitures made by bidders.

The ballots for the school election next Monday will contain the names of all the candidates on a single sheet and will be voted by placing an X opposite the name you wish to vote for, in the same manner as at the general elections.

No pity Shown.

"For years fate was after me, continuously," writes E. A. Gullidge, Verbena, Ala. "I had a terrible case of Piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for Burns and all aches and pains. Only 25c at J. H. McDonald's Drug Store.

Mr. and Mrs. Charles Nelson and Mr. and Mrs. Wm. Taylor returned from the metropolis the first of the week. Charles Nelson is employed there as clerk in one of the mercantile establishments and Mr. and Mrs. Taylor have been paying a visit to relatives and friends.

Supt. M. D. Higbee of the Cedar Sheep Association has been busy for several days preparing his annual reports and getting ready for stocktaking next Monday. He reports that the lustration has done a remarkably good business during the past year.

Lets of hay has been hauled up the past two or three weeks. The crop is reported to be unusually heavy, and with water comparatively plentiful, there is good prospects for additional cuttings. Lucerne can be had for \$4 per ton in some of the fields, and from the tithing office for \$3.

At our democratic primary held last Tuesday evening Lehi W. Jones was nominated for school trustee. The candidate is pledged to favor the centralization of schools in Cedar City, as opposed to the establishment of schools in various parts of the city for the lower grades.

The socialists held their primary Monday evening and nominated George Erie for school trustee to be voted for at the school election to be held on the 13th inst. A vote was carried declaring it to be the sense of the meeting that those present favored the centralization of the schools in Cedar City.

The committee appointed to prepare for the celebration of the 25th of July in the canyon has formulated a good program, but inasmuch as those invited to take part had not been consulted, they deemed it wise not to publish until next week. A fine time is anticipated.

Slight injuries often disable a man and cause several days' loss of time and when blood poison develops, sometimes result in the loss of a hand or limb. Chamberlain's Pain Balm is an antiseptic liniment. When applied to cuts, bruises and burns it causes them to heal quickly and without maturation, and prevents any danger of blood poisoning.

For sale by All Druggists.

Six new members were added to the church last Sunday at fast meeting. A feature of the occasion was an address by Randle W. Jones, who recently returned from a mission to the Eastern States. Elder Jones stated among other things that the Mormon missionaries did not average more than one convert each for two years proselyting. He has a full share of the zeal of the newly returned missionary and gave a very interesting account of his labors, supplemented by an orthodox talk on the gospel. Tim Record bids him welcome home again.

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick of Colusa, Calif., writes: "For 15 years I endured insufferable pain from Rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by J. H. McDonald druggist.

CORRESPONDENCE.

PAROWAN.

July 8, 1903.

The heavy winds that have prevailed since Sunday has been detrimental to the farmer, in securing the hay crop. Much fruit has been blown off the trees also.

A quiet wedding happened on the 3rd, the "high contracting parties" to use a metropolitan phrase, being Edgar Dalton and Hanna Orton.

The glorious 4th was duly celebrated, with only one little boy having his head cracked, but we hope to be better next time.

The City Council met in regular session and "done" a good deal of business, but of no importance to the general reader, the main thing was that each councillor drew the princely salary of two dollars and fifty cents each. His Honor the mayor, got a few cents more than that, and we can point with pride to the fact, that today they are behaving themselves as gentlemen should do; and a saloon here too.

Parowan, Utah, July 9, 1903.

(Special Correspondence)

The county auditor last week completed the summing up and classifying of the assessment of Iron county for 1903, which is as follows: Value of land (farming and grazing) \$243,108; value of town lots, \$101,873; value of mining claims, \$61,828; value of improvements, \$253,933; value of personal property, \$361,993; total, \$1,001,832. This is exclusive of property assessed by the state board of equalization.

We are pleased to see on our streets our old-time friend and townsman, Wm. LaFever. He will be remembered by all the old settlers as one of the few remaining veterans who came here as early as 1852, and took part in all the early struggles incident to the settlement of this place. He was particularly prominent as a scout and Indian fighter. All honor to such men.

The city fathers met Tuesday evening, and after disposing of the regular business passed, three ordinances. One makes it a misdemeanor to wantonly fire off any gun, pistol or other device loaded with powder within the city limits. Another makes it a misdemeanor to defile the waters of centre creek within ten miles of the point where the city diverts its water, by keeping or maintaining any corral for cattle or bedground for sheep where the filth will reach the creek; and the third is an anti-cigarette and tobacco ordinance. The council also fixed the tax levy for city purposes at 5 mills on the dollar.

LEEDS, UTAH.

July 8, 1903.

Bro and sister Schlaappy of Middleton are here visiting with their daughter Mrs. Mary Olsen.

Mr. August Kuhn came home last week from the Dixie mine, where he is employed, to spend the Fourth with us.

Mr. John Tullis of Pinto spent the Fourth in Leeds, putting in most of his time at Stirling's, where Miss Ida seemed to be the principal attraction.

We have had quite a variety of diversion here lately, commencing with the celebration of the Fourth, and embracing dances, theatres, storms, ice cream, etc.

HARMONY.

July 7, 1903.

John Prince went to Price to spend the Fourth.

Charley Thornton of Pinto was visiting here last Saturday and Sunday.

Owing to an injured foot, Alex Pace has been unable to work since the 3rd.

The Fourth was not as dull as it might have been, considering the hasty preparations.

Mary Schmutz of St. George, being in poor health, will spend the hottest of the summer here.

An epidemic of dums is feared here, though as yet there has but one case developed.

July 2, 1903.

(Received too late for last issue.)

Orrin Kelsey has gone to Lund for freight.

Frank M. Prince and family have gone to Washington, their old home to spend the 4th.

Dr. Middleton made a professional visit to this town last Tuesday. The infant of James W. Prince was suffering from eczema, but since the doctor's visit it is better.

Elder John W. Prince left for Price, Carbon Co., this morning. If rumor is to be relied upon he will bring home with him when he returns, one of the fair sex from that place for a wife. John is one of our leading young men and we wish him success.
